CAREER OBJECTIVE

To secure a position with an organisation where I can maximise my management and technical skills, that will lead to a lasting relationship in the field of information technology.

KEY SKILLS

- Strong communication and people skills.
- Design & development of web and mobile application architecture.
- Maintainable PHP, SQL, JavaScript, XHTML/HTML5, CSS and Objective-C.
- SVN & GIT Source Control.
- Linux cloud deployment and administration.
- Scalable web and mobile application, libraries and frameworks.
- Test driven development.
- Strong emphasis on open source technologies and agile development.
- Product and client management.

EMPLOYMENT HISTORY

SitePoint Pty Ltd.

Sept 09 - Current

Application Developer

SitePoint cover a broad range of products and services relating to multi-platform design and development. As an application developer, I was working with a team where we exercised test driven development of web and mobile applications for large clients such as Australia Post, VicRoads, AXA and City West Water. This work heavily relies on strong technical, communication, problem solving and analytical skills.

National College of Design & Technology (NATCOLL)

Sept 07 - Sept 09

Head of Department - Web Development & Interactive Design

Natcoll is a polytechnic with three campuses nationwide, based in New Zealand. I managed and mentored a team of lecturers as head of department, providing technical advice, coaching, curriculum development and scheduling. This work relied on excellent technical, communication and strong management skills.

The Web Company NZ Ltd.

Sept 06 - Sept 07

Developer

While with The Web Company I was working with a team of designers, developers and marketers designing and developing websites and web applications. Web standards, brand development, user experience and traffic growth were key skills involved while working at The Web Company NZ Ltd.

Beerfridge Ltd.

Nov 05 - Sept 06

Developer

While working for Beerfridge Ltd, I was charged with maintaining two high trafficked sites along side another developer. Continuous development and design.

“Matt was a highly efficient and product Head of Department. Always keen to upskill and keep ahead of the game, Matt was well organised and lead by example. He had great interpersonal skills and was trusted and respected by his colleagues and his students.”

Jeff Lockhard
Principal, Auckland Campus

“Matt is a developer and designer on steroids, If I ever needed someone to code the matrix for me it would be Matt. Seriously though, Matt is a very talented person and is a smart & driven employee, he has a gift of looking at the customer’s needs from a unique & solution perspective thereby gaining their confidence. Matt was a great team member at The Web Company NZ Limited and he is full of energy and knowledge and there is lot to learn from him. He always thinks out of the box. I am very happy to see him grow and wish him good luck and all the best for his future.”

Patrick Howard
Director, The Web Company NZ Ltd
